

NAPCS Unionization Research — State Research Summary

California — PERB(CA) Jurisdiction — May 2026

NAPCS Unionization Research • May 2026 • Template v7.0 • COMPLETE Registry Sweep

Section 1: State Overview

State	California
Labor Board	PERB(CA) — California Public Employment Relations Board
Governing Law	Educational Employment Relations Act (EERA), Gov. Code §3540 et seq.
Federal NLRB Jurisdiction	Limited — NLRB applies only to independently incorporated nonprofit charters that successfully argue private employer status. Two documented cases: St. HOPE Public Schools (NLRB R20, March 2026 — landmark NRTW decertification); Gompers Preparatory Academy (PERB decert pathway, June 2023). All other CA charters: PERB(CA) jurisdiction.
Registry Sweep	COMPLETE — May 9, 2026 — 1246 charter schools searched
Research Window	2024–May 2026 (Registry v44 PERB(CA) scan: May 9, 2026)
Date Convention	Labor Board Certified date (project-wide convention, declared NJ session). Exception: LAUSD Horace Mann schools — no independent PERB certification event; coverage is structural/statutory via LAUSD-UTLA master CBA.
Card-Check Available	NO — Secret ballot election required.

Section 2: Unionization Density

Total charter schools in California: 1246 (Charter School Registry v50 (NCES/ELSI 2024-25; 1,246 open schools as of May 2026)). Unionization density uses the full state total as the denominator — not the 314-school NAPCS research sample. The NAPCS sample was provided as a list of schools believed to be organized; this research validated, corrected, and expanded that list across the full state charter universe. See Section 3 for cross-state patterns and Section 7 for open decisions.

Category	Schools	% of Total	Notes
Total Unionized Charter Schools in California	176	14.1%	All CA charter schools where staff have union coverage — independently organized schools plus schools structurally covered by the LAUSD-UTLA master CBA. Total CA charter schools: 1,290. NOTE: Updated from 133 to 131 per Registry v50 reconciliation (107 CONFIRMED + 69 DEPENDENT = 176).
Independently Organized (CONFIRMED)	107	8.6%	School-specific PERB(CA) or NLRB certification. CMO networks: Green Dot/AMU (16), HTH/HTEC (18), CAVA (9), Summit (5), CWC (5), Alliance (4), Enviro Charter (4). Plus 21 independent schools and 6 non-NAPCS discovery schools. NOTE: Updated from 85 to 83 per Registry v50 reconciliation (HTLA/HTLA Middle recoded UNVERIFIED — separate nonprofit EIN 95-4855824; 77 C-prefix CONFIRMED + 6 NAPCS-ADD = 83 total).

Structurally Covered — LAUSD (DEPENDENT)	69	5.5%	LAUSD is employer of record. UTLA master CBA covers all certificated LAUSD staff including these 48 Horace Mann charter campuses. No individual school election or certification ever occurred.
Certified / No CBA / Dormant	1	0.1%	Port of Los Angeles High (NAPCS-ADD-CA-002). UTLA certified Dec 2014; no CBA ever ratified; no decertification filed. School sets salary by unilateral Board action as of 2025-26. Legally certified, functionally dormant. POLAHS is the only school in the full project with an open Executive Sponsor disposition decision.
Discovery Schools (sponsor-approved; NAPCS ID pending)	5	0.4%	Non-NAPCS schools confirmed organized during Research Team registry sweep. Assigned NAPCS-ADD-CA IDs. All 5 approved by Executive Sponsor May 19, 2026. Excluded from density numerator until official NAPCS IDs assigned. POLAHS (NAPCS-ADD-CA-002): CERTIFIED/DORMANT — Executive Sponsor decision still required on disposition.
Organizing (petition active)	2	0.2%	Caliber Public Schools: Beta Academy (C0614021) and ChangeMakers Academy (C0616026). IWW — PERB cases SF-DP-355-E and SF-DP-356-E active May 2026. Not yet certified.
Decertified (formerly organized)	2	0.2%	St. HOPE Public School 7 — decertified March 2026 via NRTW NLRB jurisdiction switch (landmark CA precedent). Gompers Preparatory Academy — decertified June 2023 via PERB petition.
Prior PERB Activity — Status Unconfirmed	55	4.3%	55 charter schools with closed PERB case history but no currently active certification confirmed. Had documented labor activity — all cases now closed. Additional verification needed before any status determination.
No Labor Board Records Found	1005	80.7%	Searched via four PERB union-name sweeps (UTLA, CTA, CSEA, SEIU — May 9, 2026). No PERB case activity found for these schools.
Total Charter Schools in California	1246	100%	Source: Charter School Registry v50 (NCES/ELSI 2024-25; 1,246 pen CA charter schools as of May 2026).

Section 3: Political, Legal & Community Landscape

Written for state and national charter sector leaders who require ground-level intelligence fused with broader sector knowledge. Findings are based on research as of May 2026.

PROMPT 1: Political and legal environment shaping charter labor in this state

California is the most complex charter labor jurisdiction in the NAPCS dataset. PERB(CA) administers the Educational Employment Relations Act (EERA), which treats all charter schools as public employers — meaning card-check certification is available, employer neutrality is the norm, and organizing timelines are significantly faster than NLRB elections. The state's political environment is strongly pro-labor: AB 1243 (2023) extended EERA protections, and the LAUSD Horace Mann model demonstrates that structural UTLA coverage can apply district-wide without individual school elections. The most significant 2026 legislative development is AB 288, signed in 2026: private sector workers in California may now petition PERB when the NLRB is unwilling or unable to act. This directly counters the NRTW Foundation's NLRB jurisdiction-switch playbook (documented at St. HOPE, March 2026 — the first CA charter decertification via NLRB private-employer challenge). Any future attempt by a CA charter operator to escape PERB jurisdiction via NRTW-assisted NLRB petition can now be countered by workers filing with PERB under AB 288. PERB and UTLA are aware and actively monitoring. The open PERB ULP cases (SF-CE-3745-E Summit, LA-CE-7156-E Environmental Charter/Quail Lake, LA-CE-7147-E Montague, SF-CE-3691-E Pacific Collegiate) and Caliber Workers Union / IWW (CONFIRMED May 2022, SF-DP-355-E and SF-DP-356-E are post-certification dispute petitions) signal continued active use of EERA processes by organized labor.

PROMPT 2: Community and social conditions driving organizing activity

Los Angeles is the epicenter of CA charter organizing, driven by UTLA's geographic density, political infrastructure, and explicit charter organizing strategy. The LAUSD neutrality ordinance (applicable to district-authorized schools) removes employer counter-organizing as a tool for any school operating under LAUSD authorization. Alliance College-Ready Public Schools illustrates the organizing pressure landscape: 4 schools have active certifications but 19 remain uncertified — all subject to ongoing UTLA organizing pressure and the same neutrality environment. CAVA's 9-school network-wide certification (California Virtual Educators United) reflects a distinct organizing pattern in virtual/online schools, where geographic dispersal is replaced by platform-level worker density. The Caliber IWW drive (Vallejo/Richmond) reflects a Bay Area pattern distinct from Los Angeles: worker-center organizing infrastructure, non-traditional union affiliation, and a 5+ year petition-to-certification timeline that underscores the determination of a smaller, independent workforce. Statewide, CTA's dominance (41 of 75 CONFIRMED NAPCS schools) reflects the union's deep infrastructure for charter school organizing, particularly in suburban and mid-size city markets.

PROMPT 3: What charter leaders should understand about how organizers are approaching schools

In California, card-check certification under EERA is the dominant organizing pathway — meaning a union can achieve recognition without a secret ballot election if it demonstrates majority support through signed authorization cards. This removes the employer's most powerful counter-organizing tool (the election campaign window) and makes the timeline from first card to certification as short as weeks. UTLA deploys a geographic saturation model in Los Angeles: organizing teams work adjacent schools simultaneously, using teacher social networks across campuses. HTEC (HTH network) demonstrates that a single network-level certification can cover all campuses — organizers will seek network-wide bargaining units wherever the employer structure supports it. CAVA's network-wide virtual certification shows the same logic applies online. The NRTW dual-track playbook (PERB decert + NLRB jurisdiction switch) is now documented and available for replication at any independently incorporated CA charter. Charter leaders whose schools are incorporated as private nonprofits should assume they are now exposed to NLRB private-employer arguments regardless of their prior PERB history. The Caliber IWW case is an outlier in method but not in outcome: IWW organizers used direct-action tactics and a multi-year campaign to build sufficient PERB petition support. Any charter with an identifiable progressive workforce community is a potential IWW target.

PROMPT 4: What charter leaders should be doing now

At the school level: understand your charter's legal incorporation structure and whether you are an independently incorporated nonprofit — this determines NLRB/PERB exposure. Conduct a legal review of whether the St. HOPE NLRB jurisdiction argument could apply to your school. At the network level: if your network has a mix of certified and uncertified schools (as Alliance does), recognize that the certified schools'

CBAAs create salary and working condition benchmarks that organizers will use in uncertified school campaigns. Prioritize staff engagement and working condition transparency at uncertified campuses. At the state association level: engage with PERB on the NLRB jurisdiction switch risk created by St. HOPE — the charter sector needs EERA clarification on which schools are vulnerable. Monitor Caliber PERB cases SF-DP-355-E and SF-DP-356-E closely; if Caliber IWW achieves certification, it will be the first IWW-certified charter bargaining unit in the NAPCS dataset and may encourage similar drives. Ensure all CBA records are filed with PERB as required — the 85 confirmed schools identified in the Registry scan represent only the most visible slice of actual organized CA charters.

PROMPT 5: Trends and developments to watch over the next 3–5 years

Three legislative and legal developments will shape CA charter labor over the next 3-5 years. First, AB 288 (2026): private sector workers can now petition PERB when NLRB is unwilling or unable to act — this directly neutralizes the NRTW NLRB jurisdiction-switch playbook that decertified St. HOPE. Expect PERB to become more aggressive in asserting jurisdiction over independently incorporated CA charters previously assumed to be NLRB-vulnerable. Second, the Hawkins County private-employer route (NLRB v. Natural Gas Utility District of Hawkins County, 402 U.S. 600, 1971): NRTW has now demonstrated that independently incorporated CA charter nonprofits with self-perpetuating boards can be argued out of PERB jurisdiction entirely and into NLRB. Under Trump NLRB, this route may become more accessible. AB 288 is the direct legislative counter — but the legal conflict between federal NLRB jurisdiction and California PERB jurisdiction under AB 288 is likely to produce litigation that reaches the 9th Circuit within 5 years. Third, the Caliber IWW cases (SF-DP-355-E, SF-DP-356-E, expected certification 2026) will test whether IWW can sustain CBA negotiations — IWW's direct-action philosophy historically prioritizes organizing over contract administration. Whether a first contract follows certification at Caliber will be closely watched as a signal for other non-traditional organizing models. Alliance's 19 uncertified schools remain the largest single unorganized UTLA target in the NAPCS dataset; additional Alliance certifications over the next 3 years are probable given the neutrality environment.

PROMPT 6: What did research find that surprised us / contradicts national expectations

Three findings stand out. First, the NRTW dual decertification playbook is more sophisticated than expected: the combination of PERB's own decertification procedure (Gompers) and NLRB private-employer jurisdiction challenge (St. HOPE) in the same state within three years suggests a deliberate sequencing strategy — test the PERB pathway first, then the NLRB pathway once PERB decert is established. No other state in the NAPCS dataset shows this dual-track pattern. Second, the IWW presence at Caliber is genuinely anomalous: IWW is an industrial union with no CTA/CFT/NEA/AFT affiliation, uses direct-action organizing methodology, and completed a 5+ year PERB certification campaign at a small (2-school) Bay Area charter — culminating in voluntary recognition by CEO Terence Johnson on May 26, 2022 (196 employees). The Caliber Workers Union is now CONFIRMED, making Caliber the only IWW-affiliated charter school union in the 584-school NAPCS dataset. No other IWW-affiliated organizing drive exists anywhere in the 584-school NAPCS dataset. Third, the CAVA virtual school certification (9 schools, single network-wide bargaining unit, California Virtual Educators United) demonstrates that remote/online charter schools are organizable at scale under EERA — a finding that may be relevant to virtual school operators in other PERB-jurisdiction states. The LAUSD Horace Mann structural DEPENDENT model (48 schools, no individual certification events) also deserves attention: it shows that charter schools operating under a district employer-of-record model are de facto unionized without any organizing campaign, simply by being part of the district labor framework.

PROMPT 8: What does the PERB case history for The Accelerated School reveal about charter school labor relations in California?

The Accelerated School (South Los Angeles) has one of the most documented PERB histories of any California charter school, spanning 2009 to 2026. UTLA was first certified on March 25, 2009 (case LA-RR-1166-E: THE ACCELERATED SCHOOL and UNITED TEACHERS OF LOS ANGELES). On the same day, SEIU Local 99 filed three simultaneous petitions to organize support staff (LA-RR-1168, -1169, -1170-E, all 03/18/2009) — all three closed without certification in June 2009, leaving support staff unorganized to this day. In 2018 an impasse was declared (LA-IM-3987-E) after 20 months of failed negotiations — leading to the first California charter school strike in January 2019 (8 days). A 2024 unit modification petition (LA-UM-1059-E, closed March 2026) reflects ongoing governance of the bargaining unit. TAS has been continuously UTLA-organized since March 2009 — 16+ years — one of California's most established charter union relationships. The dual-track 2009 organizing moment (teachers + support staff simultaneously) is a pattern seen at other CA charter schools: the two tracks do not always succeed together.

PROMPT 9: What does the ePERB null result pattern tell us about how California charter unions are organized, and what are the implications for research methodology?

A systematic ePERB search of 11 California charter schools (May 23 2026) produced one confirmed case (The Accelerated School, LA-RR-1166-E) and 10 null results. The nulls fall into three distinct categories: (1) LAUSD-umbrella organized — five LAUSD community charters (Calahan, Chandler, Darby, Emelita, Granada Community) return no individual cases because their PERB record is under Los Angeles Unified School District; a null result for a LAUSD-affiliated school confirms district-umbrella organization, not non-organization; (2) Likely voluntary recognition — Realm Charter, Five Keys, Gompers, Camino Nuevo, Steele Canyon, Creative Arts, and Options for Youth all returned null, consistent with the employer voluntarily recognizing the union without a PERB election petition; voluntarily recognized unions produce no PERB RR case number by definition; (3) Pre-digital — San Carlos School District CBA predates the ePERB portal era (pre-1990s). The methodological lesson for all future CA research: a null ePERB result does not mean unorganized. It means one of three things above. Correct next steps are school website check and PERBforms@perb.ca.gov email inquiry, not negative coding.

Section 4: Cross-State Patterns & Contributions to National Picture

Findings from California that illuminate patterns visible only when comparing across multiple states. These entries feed the project-wide Cross-State Intelligence Log and are written for state and national charter advocacy leaders.

Card-Check Jurisdiction Creates Fastest Organizing Timelines

California's EERA card-check certification pathway produces the fastest organizing timelines in the NAPCS dataset. States requiring NLRB secret ballot elections (NY, IL, PA, DC) give employers a counter-organizing window of weeks to months after a petition is filed; EERA eliminates this window. The practical result: CA charter organizing drives succeed at higher rates and with shorter timelines than equivalent drives in NLRB states. States considering charter labor legislation should treat California's union density levels — 23.9% CONFIRMED NAPCS density, not counting 48 DEPENDENT LAUSD-HM schools — as the likely outcome of card-check access for charter workers.

The NRTW Dual Decertification Playbook Is Nationally Novel

No other state in the 19-jurisdiction NAPCS dataset shows NRTW Foundation deployment of both a state-board decertification pathway (PERB) and a federal private-employer jurisdiction challenge (NLRB) in the same charter sector within a three-year window. The St. HOPE NLRB jurisdiction switch (March 2026) is the first documented successful use of this strategy in CA. The two-track playbook — exhaust state board remedies, then challenge jurisdiction federally — is now available as a template for any independently incorporated charter nonprofit in a state labor board jurisdiction. Charter operators in MA (DLR), NJ (PERC), OR (ERB), DE (PERB) should evaluate their exposure to similar arguments.

Virtual School Organizing Is a Replicable Pattern

CAVA's 9-school network-wide certification (California Virtual Educators United, CTA/NEA, card-check April 2021) demonstrates that online/virtual charter schools are fully organizable at scale under a state labor board jurisdiction. No comparable virtual school certification exists in the NAPCS dataset outside California. As virtual charter enrollment grows nationally, CAVA's model — single network-wide bargaining unit covering all teachers in a virtual CMO regardless of student geographic location — is likely to be replicated in other states with card-check or favorable organizing environments.

Independent Unions Cluster in Charter Sectors with Strong CMO Identity

California has the highest concentration of independent (non-NEA/AFT) charter unions in the NAPCS dataset: AMU (Green Dot, 16 schools), HTEC (HTH, 16 schools), California Virtual Educators United (CAVA, 9 schools), Unite Summit (Summit, 4 schools), Environmental Educators United (Environmental Charter, 4 schools). The pattern is consistent: workers at networks with strong institutional identity and employer willingness to negotiate form school-specific or network-specific unions rather than affiliating with NEA/AFT. This contrasts with states like NY (UFT dominates) and IL (CTU dominates) where established urban teacher unions absorb charter organizing. CA charter sector diversity — and PERB's relatively open certification process — creates space for independent union formation that does not exist in union-dense urban markets.

The LAUSD Horace Mann Model Is the Stealth Unionization Vector

The 48 LAUSD Horace Mann charter schools in the NAPCS dataset are unionized by default — not through any organizing campaign, election, or recognition petition, but through LAUSD's employer-of-record structure and UTLA's master CBA. These schools would not appear in any PERB database as individually certified because there is no individual certification event. This structural/statutory coverage model (DEPENDENT in Research Team status terms) is invisible to standard labor board searches and likely undercounts actual union coverage in district-authorized charter sectors nationally. Any state where charter schools are authorized by and employ through a district (rather than as independent employers) likely has a similar hidden DEPENDENT coverage population.

Section 5: Media Coverage & Public Stakeholder Positions

Press Coverage Profile

Volume: HIGH — California charter labor receives more press coverage than any other state in the NAPCS dataset. Los Angeles Times and EdSource are the primary outlets.

Primary Outlets: Los Angeles Times, EdSource, San Diego Union-Tribune, SF Chronicle, The 74, Chalkbeat (occasional)

Date Range: 2018–May 2026 (concentrated 2021–2026)

Notable Gaps: Rural CA charters (Fresno, Central Valley, North Coast) receive minimal coverage. CAVA virtual school organizing received no mainstream press. IWW/Caliber drive received limited coverage outside labor specialty outlets.

Dominant Media Framing

California charter labor coverage divides along predictable fault lines: UTLA-aligned coverage frames organizing as teacher empowerment and student-advocacy alignment; charter management-aligned coverage frames it as operational risk and potential network closure. The NRtW/St. HOPE story received neutral-to-skeptical framing in education press, with EdSource providing the most detailed procedural coverage. The Caliber IWW drive received sympathetic framing in labor press (In These Times, Labor Notes) but minimal education press attention.

Stakeholder Positions

Actor / Organization	Alignment	Position	Source
UTLA (United Teachers Los Angeles)	Pro-organizing	Active pro-organizing. Explicit charter organizing strategy. Neutrality ordinance advocacy. Alliance campaign ongoing.	UTLA website, public statements 2021–2026
PERB(CA)	Neutral (regulatory)	Neutral administrator. Has resisted NLRB jurisdiction arguments in EERA-covered schools. St. HOPE case resulted in PERB losing jurisdiction.	PERB case records, ePERB portal
California Charter Schools Association (CCSA)	Resistant	Generally resistant to organizing. Advocates for charter autonomy. Silent on NRtW/St. HOPE publicly.	CCSA public statements; absence of NRtW commentary noted
NRtW Foundation	Anti-union	Active. Dual decertification playbook (Gompers 2023 + St. HOPE 2026) is documented CA strategy. Likely monitoring additional CA charter targets.	NRtW press releases, PERB/NLRB case records
Green Dot Public Schools / AMU	Cooperative	Cooperative. AMU voluntary recognition from founding (2001). Management-union relationship is collaborative. Model for voluntary recognition in charter sector.	AMU website; Green Dot CBA (December 2023 term)
IWW / Caliber Workers Union	Pro-organizing	Active organizing. Non-traditional methodology. PERB cases pending. 5+ year campaign demonstrates commitment.	PERB case records SF-DP-355-E, SF-DP-356-E; IWW press

Sentiment Trajectory

Press sentiment on CA charter labor has shifted toward normalized coverage since 2021. Early coverage (2016-2019) treated charter organizing as surprising or anomalous; current coverage treats it as expected in large networks. The NRTW/St. HOPE story introduced a counter-narrative (decertification as worker choice) that is likely to receive more coverage as the playbook spreads. Caliber IWW remains a niche story but could achieve mainstream attention upon certification.

Section 6: Contract & CBA Access Registry

PERB(CA) — California Public Employment Relations Board public contracts portal. Direct PDF links may return 403 — OPRA or equivalent records request required for full text.

School / Network	Union	CBA Status & Term	Contract Access
Green Dot Public Schools / Animo (16 schools)	Asociación de Maestros Unidos (AMU)	Active Current term December 2023	Contract: AMU website — CBA publicly posted
High Tech High / HTEC (16 schools)	HTEC — High Tech Education Council (CTA/NEA)	Active Unknown. Gap: CBA period not publicly posted. Obtainable via PERB(CA) ePERB (credentialed) or PERB records request.	Request: Records request: PERBforms@perb.ca.gov
California Virtual Academies / CAVA (9 schools)	California Virtual Educators United (CTA/NEA)	Active Unknown. Gap: CBA period not publicly posted. Obtainable via PERB(CA) ePERB (credentialed) or PERB records request.	Request: Records request: PERBforms@perb.ca.gov
Summit Public Schools (4 schools)	Unite Summit (CTA/NEA)	Active — open ULP SF-CE-3745-E (filed 01/16/2026) Unknown. Gap: CBA period not publicly posted. Obtainable via PERB(CA) ePERB (credentialed) or PERB records request.	Contract: Unite Summit website — CBA publicly posted; PERB records request recommended for updated terms
Citizens of the World Charter Schools — CWC (5 schools)	United Teachers Los Angeles (UTLA — CTA/CFT dual)	Active — impasse resolved April 29, 2026 Unknown. Gap: CBA period not publicly posted. Obtainable via PERB(CA) ePERB (credentialed) or PERB records request.	Contract: UTLA website; PERB records request recommended (PERBforms@perb.ca.gov)
Environmental Charter Schools (4 schools)	Environmental Educators United (CTA/NEA)	Active — open ULP LA-CE-7156-E (Lawndale campus + Quail Lake) Unknown. Gap: CBA period not publicly posted. Obtainable via PERB(CA) ePERB (credentialed) or PERB records request.	Request: Records request: PERBforms@perb.ca.gov
Alliance College-Ready Public Schools — certified (4 schools)	Alliance Educators United (UTLA chapter — CTA/CFT dual)	Active — status disputed; PERB litigation history Unknown. Gap: CBA period not publicly posted. Obtainable via PERB(CA) ePERB (credentialed) or PERB records request.	Contract: UTLA website; PERB records request recommended (PERBforms@perb.ca.gov)
LAUSD Horace Mann Charter Schools (48 schools)	United Teachers Los Angeles (UTLA — CTA/CFT dual)	Active — LAUSD-UTLA master CBA Ongoing — negotiated at LAUSD district level	Contract: LAUSD Labor Relations — master CBA publicly posted

Individual CONFIRMED schools (17 schools — Session 8)	Multiple — 12 distinct union entities	Active (most) — school-specific; some unconfirmed	PERB records request recommended; some CBAs on school/union websites
Caliber Public Schools (2 schools — ORGANIZING)	Caliber Workers Union / Caliber Independent Workers Association (IWW)	No CBA — PERB certification petition pending	Monitor PERB(CA) ePERB portal for case updates
St. HOPE Public School 7 (C0603056 — DECERTIFIED)	Sacramento City Teachers Association (SCTA — CTA/NEA) — DECERTIFIED	No CBA — decertified March 5, 2026	N/A — no active CBA

Section 7: Decisions, Monitoring & Notable Findings

Part A: Decisions Required

The following items require sponsor action before research or workbook entry can proceed.

Priority	School / Scope	Item	Who
HIGH	Port of Los Angeles High School (POLAHS)	CONFIRMED — active PERB certification (UTLA, LA-RR-1237-E) but NO CBA in effect. Dormant certification. Sponsor flagged as possible decertification — research confirms no decertification was ever filed. UTLA certified Dec 2014; never successfully bargained a first contract; union appears dormant.	Sponsor decision — present as CONFIRMED or as separate Certified/Dormant category in final reports

Part B: Notable Findings

Research findings of strategic significance. No immediate action required — for awareness and discussion.

Priority	School / Scope	Item	Who
HIGH	55 CA Charter Schools — Prior PERB Activity / Current Status Unconfirmed	Registry cross-tab (Charter_School_Registry_v45.xlsx, May 15, 2026) identified 55 CA charter schools with "Historical only" union status — prior closed PERB cases but no currently confirmed active certification. These schools are distinct from both CONFIRMED and no-union-found schools and must be presented as a separate category in all CA deliverables and Final Reports.	Research Coordinator / Sponsor decision on additional verification steps
HIGH	Port of Los Angeles High School (POLAHS)	CONFIRMED — active PERB certification (UTLA, LA-RR-1237-E) but NO CBA in effect. Dormant certification. Sponsor flagged as possible decertification — research confirms no decertification was ever filed. UTLA certified Dec 2014; never successfully bargained a first contract; union appears dormant.	Sponsor decision — present as CONFIRMED or as separate Certified/Dormant category in final reports

Part C: Active Monitoring

Items being tracked. Status may change between report cycles. Research Coordinator manages ongoing surveillance.

Priority	School / Scope	Item	Who
HIGH	St. HOPE Public Charter Schools (C0603056)	St. HOPE Public Charter Schools (C0603056): NLRB RD petition (Jan 10 2026) — jurisdictional challenge risk	Research Coordinator
MEDIUM	Caliber Public Schools (2 schools)	PERB cases SF-DP-355-E + SF-DP-356-E — certification pending	Research Coordinator
MEDIUM	St. HOPE NRtW replication risk	Monitor NLRB Region 20 + NRtW for additional CA charter private-employer filings	Research Coordinator
MEDIUM	Alliance uncertified (19 schools)	UTLA organizing activity + PERB petition filings	Research Coordinator
MEDIUM	Open PERB ULPs (4 cases)	SF-CE-3745-E (Summit), LA-CE-7156-E (ECHS/Quail Lake), LA-CE-7147-E (Montague), SF-CE-3691-E (Pacific Collegiate)	Research Coordinator
