Notes

Combined %: (independently organized + structural coverage (dependent)) / census total. Structural Coverage (Dependent) = district, state, or municipal CBA by law — not organizing campaigns.

NM update (June 5, 2026): TTCS (C3508001) confirmed organized — NEA-NM, cert Oct–Nov 2021, no CBA as of April 2026. NM confirmed 2→3. Documented Organizing Activity: Explore Academy ABQ (sponsor intel) + SDIS (AFT signal).

OH update (June 2026): KIPP Columbus first CBA ratified June 2026. Menlo Park Academy new CBA ratified June 2026.

v5 additions (June 6, 2026): AK (32 STRUCTURAL), AR (109 unresearched), IA (3 STRUCTURAL), KS (7 STRUCTURAL + 1 UNVERIFIED_FINAL), NH (33 unresearched), VA (2 STRUCTURAL), WV (8 unresearched). Census expanded from 26 to 33 jurisdictions.

v6 additions (June 6, 2026) / v8 update (June 7, 2026): AL (26), ID (85), IN (134), MS (10), NC (226), NV (106), OK (73), SC (105), TN (114), TX (1,098), UT (146), WY (8). Executive Sponsor direction (June 7, 2026, PDR-018): No research planned for any of these 12 states. Sector assumed unorganized. Census expanded from 33 to 45 jurisdictions. Universe denominator increased by 2,031 schools. Density % unchanged — no organized schools confirmed in new states.

Kentucky (KY): Charter law active (KRS Chapter 160, enacted 2017) but zero charter schools operating as of NCES ELSI 2024-25. Not included in census. Will be added when first school opens.

v9 update (June 10, 2026): National denominator corrected from 8,060 to 7,989 following Charter School Registry verification of all 12 deferred states. Registry-verified counts replace ELSI estimates (-71 schools: NC -13, TX -42, UT -5, AL -3, TN -2, IN -2, NV -2, SC -1, ID -1). Combined density updated 11.0% to 11.1% (888/7,989). All 12 states confirmed unorganized following employment law verification. Charter school population now Registry-authoritative across all 45 jurisdictions.

v10 update (June 16, 2026): National denominator corrected from 7,989 to 7,888 — Registry-verified open schools only (PDR-020, locked June 11, 2026; 101 schools removed that were not confirmed open as of census date). Independently Organized corrected from 368 to 363: California count reduced 194→189 following June 12, 2026 deduplication pass (PDR-022) which removed 5 duplicate records created during the promotion process; Rooted School New Orleans (LA) added to confirmed count — school carries CERTIFIED_NO_CBA status, which was not previously captured by the scanner. Three schools recoded from DEPENDENT to CLOSED/HISTORICALLY_ORGANIZED: Kamalani Academy (HI, closed June 30, 2025), Independence School Local I (MD, closed 2024), Excel Academy Public Charter (MD, closed August 2025) — all were unionized under structural district CBA coverage at time of closure. Illinois closed count corrected 5→6 (Haugan Middle School added following ASPIRA single-employer determination, June 12, 2026). Net effect: combined organized 888→883; combined density 11.0%→11.2% (denominator correction has larger effect than organized count reduction).

Data source: Full programmatic scan of all Tier 1 state data files. Schema v6.4. June 6, 2026.

* Doc. Organizing Activity: Schools where credible evidence of organizing activity exists in the research record but no certification or recognition has been confirmed. Includes prior labor board petitions, reported campaigns, union affiliate signals, or direct intelligence. See Notes column for state detail.

† Decertified: Charter schools that previously had confirmed union representation but subsequently lost that representation through a labor board decertification process or failure to renew recognition. Decertified schools remain in the census total if still open. Not counted in independently organized or structural coverage figures.

‡ Closed (Historically Organized): Charter schools that were confirmed organized at time of closure. Shown for historical reference only. 5-year lookback window. Not included in census total.
