

NAPCS Unionization Research — State Research Summary

Ohio — NLRB (Region 8 / Region 9) Jurisdiction — May 2026

NAPCS Unionization Research • May 2026 • Template v7.0 • COMPLETE Registry Sweep

Section 1: State Overview

State	Ohio
Labor Board	NLRB (Region 8 / Region 9) — National Labor Relations Board — Region 8 (Cleveland) and Region 9 (Cincinnati/Columbus)
Governing Law	National Labor Relations Act (NLRA). Ohio charter schools ("community schools" per ORC Chapter 3314) are classified as privately incorporated nonprofits — private employers under the NLRA. SERB (State Employment Relations Board, ORC Chapter 4117) does NOT apply. Settled by NLRB precedent: Menlo Park Academy (08-RC-286190, 2022), KIPP Columbus (09-CA-310589, 2022–2024), and a decade of prior Ohio charter elections all confirming NLRB jurisdiction.
Federal NLRB Jurisdiction	YES — NLRB has exclusive jurisdiction over all 32 Ohio NAPCS charter schools. SERB jurisdiction has been argued and rejected in every Ohio charter labor case. The NLRB's ruling at Menlo Park Academy stated the school "was not created directly by the state and is not a department or administrative arm of government." This is the operative standard for all Ohio community schools.
Registry Sweep	COMPLETE — April 2026 (Registry v7 — SERB scan entry point; all confirmed schools under NLRB) — 323 charter schools searched
Research Window	March–April 2026 (initial); May 2026 (reconciliation session)
Date Convention	Labor Board Certified date. Project-wide standard declared in NJ session. Exact cert dates for several Cleveland ACTS schools require NLRB FOIA records requests for full precision.
Card-Check Available	NO — NLRB jurisdiction = secret ballot election required. No card-check certification path available. Employer can demand election at 30%+ showing.

Section 2: Unionization Density

Total charter schools in Ohio: 323 (Charter School Registry v50 (NCES/ELSI 2024-25; 323 open OH charter schools as of May 2026)). Unionization density uses the full state total as the denominator — not the 32-school NAPCS research sample. The NAPCS sample was provided as a list of schools believed to be organized; this research validated, corrected, and expanded that list across the full state charter universe. See Section 3 for cross-state patterns and Section 7 for open decisions.

Category	Schools	% of Total	Notes
Total Unionized Charter Schools in Ohio	9	2.8%	Active CONFIRMED schools only. NLRB jurisdiction — Ohio charters are private employers under federal law. SERB has no charter school jurisdiction.
Independently Organized (CONFIRMED)	9	2.8%	All OFT/AFT-affiliated. 7 Cleveland ACTS schools (OFT Local 6570) + KIPP Columbus ACTS + ACPA United (certified December 5, 2025, 44-1 vote, case 09-RC-375102).
No Labor Board Records Found	314	97.2%	No NLRB ADS records found for remaining 314 OH charter schools. Full 323-school open registry confirmed (April 2026).

			Includes all 23 NAPCS-listed unverified schools.
Total Charter Schools in Ohio	323	100%	Source: Charter School Registry v50 (NCES/ELSI 2024-25; 323 open OH charter schools as of May 2026).

Section 3: Political, Legal & Community Landscape

Written for state and national charter sector leaders who require ground-level intelligence fused with broader sector knowledge. Findings are based on research as of May 2026.

PROMPT 1: What is the political and legal environment shaping charter labor relations in this state?

Ohio presents one of the most counterintuitive jurisdictional stories in the NAPCS research dataset. Ohio charter schools are known locally as "community schools" and are funded through the state's public education system — yet they are legally classified as private employers, placing them squarely within NLRB jurisdiction rather than the state SERB framework. This classification is not a technicality. It has been argued, litigated, and consistently confirmed over nearly a decade of Ohio charter organizing drives. Every Ohio charter operator that has challenged NLRB jurisdiction — including KIPP Columbus and Menlo Park Academy — has lost. The NLRB's operative standard ("not created directly by the state and not a department or administrative arm of government") applies cleanly to all independently incorporated Ohio charter nonprofits. The practical consequence is that Ohio charter organizing must proceed through the full NLRB election process: card filing, election petition, pre-election hearing, secret ballot vote, and post-election certification — a sequence that typically runs 60–120 days and gives employers a structured counter-organizing window. This is structurally more difficult than the card-check pathway available in Massachusetts, New Jersey, and Minnesota. That Ohio has produced 9 confirmed union schools despite this higher procedural bar reflects the quality and determination of the organizing infrastructure that has been built — specifically the Cleveland ACTS model. Ohio is a right-to-work state for public employees under SB 5 (though SB 5 was repealed by referendum in 2011, and Ohio public employees retain full collective bargaining rights). For private employers under the NLRA, Ohio has no right-to-work law, which means agency fee and union security provisions remain available in CBA negotiations for charter school unions.

PROMPT 2: What community and social conditions are driving organizing activity in this state?

The organizing geography of Ohio's charter sector is strikingly concentrated. Seven of nine confirmed union schools are in the Cleveland metropolitan area, all represented by a single local (Cleveland ACTS, OFT Local 6570). This concentration is not accidental — it reflects a deliberate organizing infrastructure built school by school since 2015, anchored in the ACCEL/ICAN network and expanding outward. Cleveland has a strong union culture rooted in its industrial history, and the Ohio Federation of Teachers has deep institutional roots in the Cleveland Teachers Union (CTU), which provides organizing expertise, legal resources, and institutional memory to the charter campaign. The Columbus market presents a different dynamic. KIPP Columbus — one of the most prominent organized KIPP campuses nationally — won its election in May 2023 following a protracted employer counter-campaign that included NLRB unfair labor practice violations (wage freeze threats, withheld stipends). The Columbus certification was marked by employer resistance; the Cleveland certifications were marked by relatively clean election processes. ACPA United's extraordinary 44-1 election result (December 2025) — 81% card support, nearly unanimous election — suggests that Columbus charter staff mobilized with the same intensity as Cleveland's earliest organizers, possibly accelerated by awareness of the KIPP Columbus experience. Across both markets, the schools that have organized share a mission profile: arts integration, progressive education, community-rooted pedagogy, and explicit commitments to equity and inclusion. ACPA is a textbook example — founded as an LGBTQ-affirming, arts-integrated charter, its staff culture already embodied the collective values that translate into union organizing.

PROMPT 3: What organizing strategies and approaches are being used in this state?

The Cleveland ACTS model is the most sophisticated single-city charter union infrastructure in the full NAPCS research dataset. Established around the 2015–2016 ACCEL/ICAN certifications, Cleveland ACTS (OFT Local 6570) now represents seven schools spanning three unrelated charter operators (ACCEL/ICAN, Summit Academy, and independent operators Stepstone and Menlo Park). This multi-operator local is a deliberate strategic choice: by aggregating bargaining power across operators, Cleveland ACTS can maintain a critical

mass of organized staff, share legal and bargaining infrastructure, and create a visible organizing presence that reduces the risk premium for individual schools. The Cleveland ACTS replication playbook is identifiable across each certification: early organizing committee formation within the school, NLRB election petition filed after supermajority card support established, election won decisively, first CBA ratified (typically 12–24 months post-certification), and ongoing contract cycle managed through the local. The Summit Academy Parma certification in 2018 — followed by Ohio's first charter school strike in February 2019 — demonstrated the local's willingness to use its full arsenal. The strike was resolved in days, and the resulting CBA became a template for subsequent negotiations. KIPP Columbus ACTS operates similarly but is KIPP-specific rather than multi-operator — reflecting the KIPP-specific organizing pattern seen in New York and DC. ACPA United (OFT) has not yet joined Cleveland ACTS; it may form its own local or join Cleveland ACTS as KIPP Columbus ACTS did with the OFT umbrella. The OFT's strategy is explicitly replication-oriented: OFT President Melissa Cropper's statement at ACPA's launch ("if successful, ACPA United would be the ninth charter school in OFT") signals active institutional commitment to expansion.

PROMPT 4: What should charter leaders be doing now in response to organizing patterns in this state?

Ohio charter leaders face a structurally clearer environment than most states: the law is settled (NLRB jurisdiction, secret ballot elections), the dominant union is identified (OFT/AFT via Cleveland ACTS), and the organizing geography is concentrated enough to study. The most important strategic insight from the Ohio data is that employer counter-organizing has failed in every documented case, and in the KIPP Columbus case, it generated NLRB unfair labor practice findings that became a public liability. Charter leaders should treat NLRB compliance as an absolute floor — not because the law requires it (it does), but because ULP violations are documented in the federal record and accessible to future organizing campaigns as evidence of bad-faith management. The schools that have organized most decisively — ACPA with a 44-1 vote, ACCEL schools with 21-3 votes — were not schools with poor leadership or hostile cultures. They were schools whose staff already shared strong collective values. Leaders of similar schools should assess whether their staff engagement, voice, and compensation structures are sufficient to address the underlying conditions that make organizing appealing. Compensation benchmarking against Cleveland ACTS CBAs (available through OFT and NLRB case records) is a useful starting point. For the 23 unverified schools, leaders should not assume absence of evidence means absence of organizing interest. The NLRB FOIA process is the only reliable way to confirm clean labor board status. Summit Academy's multiple campuses represent a specific monitoring priority: two Summit campuses are confirmed organized (Parma, Lorain) and one discovery school (Painesville) is confirmed organized — the operator's overall posture toward labor relations is relevant intelligence for all remaining Summit campuses.

PROMPT 5: What trends should charter sector leaders watch over the next 3–5 years?

The most consequential near-term development is ACPA United's first contract negotiation. The 44-1 vote creates strong mandate for the union; the absence of prior organizing at ACPA means the employer has no CBA template to anchor negotiations. The trajectory of this negotiation — whether it is collaborative or contentious, and whether it results in a contract within 12–18 months — will signal whether OFT's Columbus organizing strategy has durable institutional support. KIPP Columbus ACTS continues to negotiate its first contract (certified May 2023, contract status pending as of May 2026). Three-plus years of post-certification bargaining without a first contract is unusual and warrants monitoring. The NLRB's August 2024 ULP findings against KIPP Columbus (wage freeze threat, withheld stipends during organizing) may have created a bargaining climate that extends first-contract timelines. The national KIPP network's labor relations posture — which has been consistently resistant to organizing — is a relevant variable. For Summit Academy's unverified campuses (Canton Alternative Learners, Canton Secondary, Youngstown, Youngstown Secondary), the confirmed organized status of Parma and Lorain should be treated as a predictive indicator. Summit Academy has faced organizing at multiple sites; its management has not taken a publicly neutral stance. The Cleveland ACTS infrastructure that organized Parma and Lorain is available and experienced. Monitoring of NLRB RC petitions in Summit Academy's name should be part of any Ohio charter sector early-warning system.

PROMPT 6: What surprised us in this state? What contradicts what national leaders expect?

The most significant surprise in the Ohio data is the complete absence of OEA/NEA in the Ohio charter sector. OEA (Ohio Education Association), the NEA state affiliate, represents approximately 120,000 Ohio public school educators and is one of the most powerful education unions in the country. Yet across 9 confirmed Ohio charter union schools, OEA has zero representation. Every certified Ohio charter school union is affiliated with OFT (AFT). This is counterintuitive given OEA's institutional dominance in traditional public school districts and its resources — but it reflects the strategic decision OFT made in the mid-2010s to invest specifically in charter school organizing through the Cleveland ACTS infrastructure, while OEA did not. The second surprise is the

NLRB-jurisdiction classification. National charter sector leaders routinely assume that publicly funded schools with state oversight are public employers for labor law purposes. In Ohio, that assumption is wrong — and has been consistently wrong for a decade. The "community school" branding obscures the private employer classification. Charter leaders from other states who move to Ohio or work with Ohio partners may carry incorrect assumptions about which labor board governs. Finally, the 44-1 vote at ACPA deserves attention as a data point about organizing velocity and consensus. A near-unanimous election in a contested NLRB process — with the full employer counter-organizing window available — suggests that when Ohio charter school staff have already built strong collective values and internal trust, the formal organizing process becomes a ratification of an existing community rather than a contested campaign. ACPA's arts-integration, equity-focused, LGBTQ-affirming culture appears to have produced exactly that condition.

PROMPT 7: Ohio has two separate research tracks — how do they work and how do you tell them apart?

Ohio is the only state in the NAPCS dataset with a confirmed dual-track jurisdictional architecture within the same state research scope. Understanding this split is essential for accurate research, correct Accumulator coding, and the right refresh cadence. **TRACK 1 — INDEPENDENTLY INCORPORATED CHARTERS (NLRB, secret ballot):** Covers all 9 CONFIRMED Ohio schools (Cleveland ACTS, KIPP Columbus, ACPA). These schools are privately incorporated nonprofits not created directly by the state. NLRB Regions 8 (Cleveland) and 9 (Columbus/Cincinnati) have exclusive jurisdiction. Research path: NLRB ADS employer name search. A zero-result ADS search means no union — expected and definitive. Refresh source: NLRB ADS re-scan annually. CBAs filed with NLRB or held privately; not at SERB. **TRACK 2 — CONVERSION COMMUNITY SCHOOLS (ORC §3314.10(A)(3), district CBA carryover):** Covers all 12 DEPENDENT Ohio schools. These schools were created by converting all or part of an existing public district program. By operation of ORC §3314.10(A)(3), employees automatically remain in the authorizing district's collective bargaining unit — no election, no separate SERB certification, no charter-level NLRB case. NLRB search on the charter school name correctly returns zero results. The labor case lives under the school district's name. The district school board, not the charter governing board, is the employer of record (ORC §3314.10(B)). Research path: (1) confirm district authorizer type; (2) confirm school created by conversion of existing district program; (3) locate district CBA via SERB Clearinghouse (serb.ohio.gov); (4) search recognition clause for community school or Digital Academy language. Refresh source: SERB district CBA renewal — not NLRB ADS. **HOW TO TELL THEM APART AT INTAKE:** Detection signal 1 — NAPCS description field: "Collective bargaining agreement required by state law" is verbatim ORC §3314.10 language. Any Ohio school with this NAPCS flag goes immediately to Track 2 (DEPENDENT path). Detection signal 2 — Gate 0 authorizer check: If the authorizing entity is a local school district board (not ESC, university, or state board), apply Track 2 analysis. Detection signal 3 — School name contains "Digital Academy," "Opportunity School," "Learning Center," or similar language suggesting a district alternative/virtual program — high probability of Track 2. **ORC §3314.102 REMOVAL EXCEPTION — DOES NOT APPLY HERE:** The only statutory mechanism to remove conversion community school employees from the district CBA requires: (a) a *municipal* school district, (b) under academic distress commission oversight, (c) with the mayor submitting a written removal statement. All 12 DEPENDENT Ohio NAPCS schools are in city, local, or exempted village districts — none qualify. This exception cannot be used to reclassify any of these 12 as UNVERIFIED or unorganized without confirming these three conditions. **CROSS-CYCLE REFRESH PROTOCOL:** Track 1: Annual NLRB ADS re-scan by employer name. Watch for RC petitions, RD petitions, CA charges. Track 2: Annual check of district CBA expiration and renewal via SERB CBA archive. If district CBA lapses without renewal, flag for coordinator follow-up — coverage technically continues until a new CBA is in force, but monitoring is appropriate.

PROMPT 9: KIPP COLUMBUS AND BAD-FAITH BARGAINING — THE HIGHEST-PRIORITY OH MONITORING ITEM

KIPP Columbus (Columbus, OH) is the most significant unorganized charter school in the Ohio NAPCS dataset and one of the highest-priority monitoring targets in the full national dataset. KIPP Columbus operates 8+ campuses and approximately 600 staff — making it the largest unorganized KIPP campus in any NAPCS state where KIPP has been organized (NY, NJ). KIPP Academy Bronx (NY) provides the most relevant comparison: the ALJ ruling in JD-51-25 (June 2025) documented 3.5 years of bad-faith bargaining by KIPP Academy Charter School after certification by UFT. If KIPP Columbus organizes, the Bronx bad-faith bargaining precedent creates immediate ULP exposure for any delay or refusal to bargain tactics. Monitor NLRB Region 9 (Cincinnati) and Region 8 (Cleveland) dockets for any KIPP Columbus RC petition or ULP charge. OEA (Ohio Education Association) and OFT (Ohio Federation of Teachers, AFT) both have infrastructure in Columbus capable of mounting a campaign at the KIPP Columbus scale.

PROMPT 10: THE SERB DUAL-TRACK — HOW OHIO'S SPLIT JURISDICTION AFFECTS RESEARCH AND ORGANIZING

Ohio has two separate research tracks documented in this dataset. SERB (State Employment Relations Board) has jurisdiction over "public employees" — but Ohio courts have split on whether independently incorporated nonprofit charter schools qualify as public employers. NLRB Region 9 (Cincinnati) and Region 8 (Cleveland) have asserted jurisdiction over independently incorporated OH charter schools, producing NLRB-certified bargaining units at several schools in the dataset. The practical split: SERB for district-run conversion charters and some locally authorized charters; NLRB for independently incorporated nonprofit charter schools. Researchers must check both portals for every OH charter school. The dual-track ambiguity is the primary source of the OH undercounting: schools that organized via SERB are not visible in NLRB ADS searches, and vice versa. OH's 2.8% density (9 CONFIRMED / 323 schools) almost certainly understates the true organized universe — SERB records for pre-2005 charter certifications have not been fully searched.

Section 4: Cross-State Patterns & Contributions to National Picture

Findings from Ohio that illuminate patterns visible only when comparing across multiple states. These entries feed the project-wide Cross-State Intelligence Log and are written for state and national charter advocacy leaders.

ACTS organizing model — national template

The ACTS (Alliance of Charter Teachers and Staff) model — multi-school, multi-operator local under AFT umbrella — is the dominant AFT charter organizing vehicle in all three states. Ohio's Cleveland ACTS is the clearest pure-form example: built from scratch in one city, expanding school by school with shared infrastructure.

NLRB jurisdiction / no card-check = slower organizing velocity

All three NLRB-jurisdiction states in the dataset (OH, IL, PA) show lower confirmed density than card-check states (NJ 81%, MA 47%, MN 3 new confirms). NLRB election requirement creates a 60-120 day counter-organizing window that card-check states lack.

Mission-aligned schools organize with near-unanimity

Schools with explicit progressive, equity, or arts-integration missions that already embed collective values in their culture tend to vote overwhelmingly for union representation when they organize. ACPA's 44-1 result is the strongest single example in the full dataset.

Employer ULP violations appear in KIPP campaigns

KIPP operators in multiple states have faced NLRB unfair labor practice findings during organizing campaigns. This pattern is documented in the national KIPP network's labor relations approach and should be treated as a predictive indicator for remaining unorganized KIPP campuses.

Ohio dual-track: NLRB (independent charters) vs. ORC §3314.10(A)(3) district CBA carryover (conversion charters) — named exemplar for DEPENDENT research path

Ohio is the only state in the NAPCS dataset with a confirmed dual-track jurisdictional architecture within a single state research scope. Track 1 (NLRB): 9 independently incorporated charters — researched via NLRB ADS, refreshed annually via NLRB ADS. Track 2 (ORC §3314.10(A)(3)): 12 conversion community schools — employees remain in district CBA by statute, no NLRB case exists, researched via SERB district CBA archive, refreshed via SERB CBA renewal cycle. Detection signal: NAPCS description "Collective bargaining agreement required by state law" is verbatim ORC §3314.10 language — any Ohio school with this flag goes immediately to the district CBA research path, not NLRB search. Removal exception (ORC §3314.102) requires municipal district + academic distress commission + mayor statement — does not apply to any NAPCS Ohio DEPENDENT school. Statutory coverage is self-executing — CBA text need not explicitly name the community school. This dual-track pattern is now codified in the Carryover Matrix (NAPCS_Conversion_CBA_Carryover_Matrix_v1.js) and Methodology Register Part 12 as the primary named exemplar.

Section 5: Media Coverage & Public Stakeholder Positions

Press Coverage

Ohio charter union organizing has received consistent press coverage concentrated around election events and the 2019 Summit Academy Parma strike. The Cleveland Plain Dealer and cleveland.com have covered Cleveland ACTS certifications most thoroughly. The Columbus Dispatch has covered KIPP Columbus and ACPA. OFT press releases are the most complete single source for certification announcements. The KIPP Columbus ULP findings received national education press attention (Chalkbeat, Education Week). ACPA's 44-1 election result has not received major press coverage as of May 2026 — consistent with the pattern that overwhelming union victories receive less press attention than contested elections.

Union Communications

OFT (oft-aft.org) is the authoritative source for Ohio charter union communications. OFT issued a press release on November 19, 2025 announcing ACPA's card filing. Cleveland ACTS issues periodic communications through OFT channels. The OFT "locals" page lists all affiliated locals including Cleveland ACTS (Local 6570) and KIPP Columbus ACTS. AFT national communications have mentioned KIPP Columbus as a significant KIPP organizing precedent.

Employer / School Communications

Employer responses to Ohio charter organizing have ranged from neutral (early ACCEL certifications) to actively resistant (KIPP Columbus, where NLRB found ULP violations in August 2024). Summit Academy Parma's management did not recognize voluntarily but did not contest the election result — the strike occurred over first-contract terms, not recognition. ACPA's management has not issued public statements about the organizing campaign or election result as of May 2026.

Authorizer / State Agency Positions

Ohio charter authorizers (ESCs, universities, school districts, and the Ohio Department of Education and Workforce) have not issued public statements about charter school unionization. Authorizer responses to union activity are not documented in available sources.

Legislative Context

Ohio's charter school law (ORC Chapter 3314) does not address employee unionization. The NLRB's exclusive jurisdiction over Ohio charter employees has not been legislatively modified. Ohio is not a right-to-work state for private employers (NLRA preempts state right-to-work for private sector). Ohio has not enacted any legislation that would shift charter school employees to SERB jurisdiction.

Section 6: Contract & CBA Access Registry

NLRB (Region 8 / Region 9) public contracts portal. Direct PDF links may return 403 — OPRA or equivalent records request required for full text.

School / Network	Union	CBA Status & Term	Contract Access
Summit Academy Secondary School-Parma	Cleveland ACTS / OFT Local 6570	Active Multiple cycles — first CBA ratified March 2019 (post-strike)	N/A
Northeast Ohio College Preparatory School	Cleveland ACTS / OFT Local 6570	Active First ratified ~2017-18; current cycle unknown	N/A
Cleveland College Preparatory Academy	Cleveland ACTS / OFT Local 6570	Active First ratified ~2017-18; current cycle unknown	N/A
University of Cleveland Preparatory School	Cleveland ACTS / OFT Local 6570	Active First ratified ~2017-18; current cycle unknown	N/A
Stepstone Academy	Cleveland ACTS / OFT Local 6570	Active	N/A

		First ratified ~2019-20; current cycle unknown	
Summit Academy Community School- Lorain	OFT	Active First ratified ~2022-23 (post-cert Jan 2022); current cycle unknown	N/A
Menlo Park Academy	Cleveland ACTS / OFT Local 6570	Active First ratified ~2022-23 (post-cert April 2022); current cycle unknown	N/A
KIPP Columbus	KIPP Columbus ACTS / OFT	Pre-first-contract — in negotiation Certified May 5, 2023; first contract not yet ratified as of May 2026	N/A
Arts and College Preparatory Academy (ACPA)	ACPA United / OFT	Pre-first-contract — newly certified Certified December 5, 2025; bargaining not yet commenced	N/A
Coshocton Opportunity School	Coshocton City Education Association (OEA)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3) Ongoing — district CBA cycle	N/A
Eagle Learning Center	Oregon City Federation of Teachers (OFT/AFT)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3) Ongoing — district CBA cycle	N/A
Fairborn Digital Academy	Fairborn Education Association (OEA/NEA)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3) Ongoing — district CBA cycle	N/A
Findlay Digital Academy	Findlay Education Association (OEA)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3) Ongoing — district CBA cycle	N/A
Foxfire High School	Maysville Education Association (OEA)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3) Ongoing — district CBA cycle	N/A
Foxfire Intermediate School	Maysville Education Association (OEA)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3) Ongoing — district CBA cycle	N/A
Par Excellence Academy	Newark Teachers Association (OEA)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3) Ongoing — district CBA cycle	N/A
Quaker Digital Academy	New Philadelphia Education Association (OEA)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3)	N/A

		Ongoing — district CBA cycle	
Rittman Academy	Rittman Education Association (OEA)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3) Ongoing — district CBA cycle	N/A
Schnee Learning Center	Cuyahoga Falls Education Association (OEA)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3) Ongoing — district CBA cycle	N/A
Tomorrow Center Digital	Mount Gilead Teachers Association (OEA)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3) Ongoing — district CBA cycle	N/A
Utica Shale Academy of Ohio	Jefferson County Teachers Association (OEA)	ACTIVE — district CBA coverage via ORC §3314.10(A)(3) Ongoing — district CBA cycle	N/A

Section 7: Decisions, Monitoring & Notable Findings

Part A: Decisions Required

The following items require sponsor action before research or workbook entry can proceed.

No sponsor decisions pending for this state.

Part B: Notable Findings

Research findings of strategic significance. No immediate action required — for awareness and discussion.

Priority	School / Scope	Item	Who
HIGH		Gate 0 Methodology Gap — OH DEPENDENT Schools Missed in Initial Research. 12 district-sponsored charter schools were coded UNVERIFIED in the May 2026 initial session because the Gate 0 authorizer classification check was not part of the research protocol. These schools are covered by district CBAs under ORC §3314.10(A)(3) — a statutory requirement that generates no independent charter-level NLRB record. The NAPCS description field ("Collective bargaining agreement required by state law") was the signal that should have triggered DEPENDENT research path. Gate 0 now added to permanent methodology (Methodology Register v21 Part 12). Flag for documentation in OH state research summary Section 7B (Data Quality findings).	

Part C: Active Monitoring

Items being tracked. Status may change between report cycles. Research Coordinator manages ongoing surveillance.

Priority	School / Scope	Item	Who
HIGH	KIPP Columbus (C3908011)	Pre-first-contract 3+ years. Monitor NLRB docket weekly for contract ratification or additional ULP filings.	Research Coordinator
HIGH	ACPA United / ACPA (C3902003)	Newly certified Dec 2025. Monitor OFT and NLRB for first contract status quarterly.	Research Coordinator
MEDIUM	Summit Academy Canton Alt. Learners (C3900014)	Same operator as 2 confirmed organized campuses. Cleveland ACTS organizing infrastructure available.	Research Coordinator
MEDIUM	Summit Academy Canton Secondary (C3904063)	Same operator as 2 confirmed organized campuses.	Research Coordinator
HIGH	Summit Academy Youngstown (C3905038)	CONFIRMED May 22, 2026 — OEA/NEA independently organized. NLRB records request needed for case number and certification date. Accumulator entry pending reviewer approval.	Research Coordinator
HIGH	Summit Academy Secondary School-Youngstown (C3904066)	CONFIRMED May 22, 2026 — OEA/NEA independently organized. NLRB records request needed for case number and certification date. Accumulator entry pending reviewer approval.	Research Coordinator
LOW-MEDIUM	Ohio College Preparatory School, Maple Heights (C3913034)	Cuyahoga County school adjacent to Cleveland ACTS geography. Independent operator.	Research Coordinator
LOW	Zanesville Community HS (C3907020)	CONFIRMED DEPENDENT (Session B, May 24, 2026) — Zanesville City SD / ZEA/OEA/NEA / SERB CBA 21-MED-03-0442. Monitor for: (1) district CBA renewal cycle at SERB archive (serb.ohio.gov) — refresh every 3 years or at contract expiration; (2) any change in sponsorship status (district relinquishing charter). Refresh path: SERB CBA archive → search "Zanesville City School District." No NLRB search required.	Research Coordinator
MEDIUM	Franklin Local Community School (NAPCS ID unconfirmed)	CONFIRMED DEPENDENT (Session B, May 24, 2026) — Franklin Local SD / FLEA/OEA/NEA. NAPCS ID not yet confirmed ("Franklin Local Digital" name mismatch — see OPEN_ITEMS). Monitor for: (1) NAPCS ID resolution; (2) district CBA renewal at SERB archive; (3) any change in district sponsorship. Do NOT enter accumulator until NAPCS ID verified.	Research Coordinator
HIGH	Everest High School (Reynoldsburg, OH)	UNVERIFIED as of Session B. St. Aloysius Orphanage sponsor (501c3 — not district). NLRB R8 individual ADS search still required. Also monitor for: (1) any organizing activity (prior Reynoldsburg CSD district teachers union connection may create awareness); (2) any NLRB R8 case filing. Add to next OH research session work queue.	Research Coordinator
